

# Risk & Compliance Assessment Services

## Measure Year-over-year Progress & Set Goals

Annual Assessments are a central tenet of any solid security program. Whether you are under compliance mandates, validating security for clients and partners, or simply measuring ROI on last year's security spending, you need to know where your gaps are, and will benefit from a prioritized list of next steps to close them.

Cerberus risk assessments map to the NIST CSF as the most widely accepted, comprehensive framework. Compliance-focused assessments can be mapped to any framework (or multiple). Our deep bench of audit and risk advisory experts maintain decades of combined experience across numerous frameworks and maintain current certifications.

### Common Standards

CMMC, PCI DSS,  
HIPAA, HITRUST,  
FedRAMP, NERC CIP,  
GDPR, and more

## The Cerberus Difference

Our assessments are much more than the typical “check a box” offering, with in-depth verification of proper controls and how they have been implemented. For example, some assessments will simply verify that you have “a” control in-place. Our experts will help you understand whether or not the current control is the best strategy for your environment, and whether or not it has been implemented in the best way possible, to give you maximum protection.

## Beyond the Report

The end result is an assessment that translates easily into action. Our capabilities do not stop with the report, however. With teams of remediation specialists on-hand, we can help you speed up remediation projects and make significant change in your environment year-over-year.

The Cerberus goal is to get to know your team and operate as an extension of your current efforts, helping you speed up the road to cyber resilience.

# CERBERUS SENTINEL

### Security Testing Services

- Penetration Testing
- Red Team
- Purple Team
- Secure Code Review
- Vulnerability Assessments

### Secured Infrastructure

- Secure Operations
- Advanced Firewall Management
- Patch & Vulnerability Management
- Cloud Professional Services

### Compliance & Risk Advisory

- Risk Assessments
- Managed Risk and Compliance
- Compliance Audits
- PCI QSA Services
- Security Awareness Training

### Security Operations Center

- MDR
- XDR
- SIEM
- SOCaaS
- Incident Response
