Cerberus's Risk Advisory Services

Cerberus will help you establish baselines for protecting your environment and implement best security practices.

We also offer a security program management portal, SentrySPEED, for our clients to use in planning and executing key initiatives, tracking their security posture, and gaining visibility into ongoing network monitoring.

Cerberus's Security Monitoring Services

We maintain our own, U.S.-based, 24x7x365 Security Operations Center (SOC) in Okmulgee, OK, from which we monitor and secure scores of networks – including core national infrastructure.

Our SOC is fully staffed around-the-clock with certified security experts who work with enterprise toolsets to monitor your environment and respond to any anomalies right away.
